High quality colour

Print your documents in colour with the iRC1021i and they're sure to grab everyone's attention. An impressive print resolution of 2,400 dpi x 600 dpi, allows your proposals to stand out, your reports to get noticed, and your document communication to achieve that crucial competitive edge.

Highly productive

Print, copy, scan, send or fax* – it's quick and simple with the multifunctional iRC1021i. Colour and black and white printing is carried out at a swift 21 pages per minute. A sturdy document feeder, plus a potential paper supply of 850 sheets, ensures sizeable print runs can be comfortably accommodated.

21 pages per minute

The iSend facility enables the iRC1021i to be a great communicating aid – instantly sending files to e-mail addresses, desktop, ftp server and file locations.

Ever so easy

A large 3.5 inch colour display with an Easy-Scroll Wheel allows effortless access to all functions. Intuitive, illustrated set-up and troubleshooting wizards, show you how to use the device, ensuring smooth and hassle free operation at all times.

Size matters

You might be surprised to find such heavyweight performance from such

Compact PDF function

a compact device, measuring just 546mm x 527mm x 632mm (w x d x h). Documents can be scanned into a number of digital formats including convenient 'Compact PDF' using Canon's unique high compression technology. This provides high quality, portable PDF documents that are perfect for sharing via SEND functionality.

Efficient control, effective security

The iRC1021i incorporates Canon's Auto Colour Sensing technology which intelligently detects which pages within a document contain colour. This helps to keep your costs down as you only pay for colour when you use it. There's no need to concern yourself with constant device monitoring, as eMaintenance automatically reports any problems to the appropriate provider of service and maintenance, for speedy resolution.

Combine the iRC1021i with Canon's uniFLOW Output Manager for a host of extra features, such as User Print Accounting, which allows you to track usage and associated costs, and Secure Printing, which stores print jobs until the user correctly identifies themselves via the relevant security method e.g. card or password.

Considerate to the environment

Switch on and the iRC1021i is ready to go in just 60 seconds. And when not in use, a sleep mode is automatically invoked consuming just 1.2 watts. Plus, you can save paper as well as improving the professionalism of reports, thanks to the device's double sided printing capabilities.
